

Sodium Thiosulphate

Sodium Thiosulphate powder is used to de-chlorinate ballast waters prior to discharge to the environment.

Available in packaging of 25kg.

Applications:

For use as a dechlorinating agent to remove excess chlorine from water that has been treated with chlorine as a disinfectant. This is important because excess chlorine can be harmful to marine life and can also cause corrosion and other damage to equipment on board ships.

Product Features:

- High purity of 99%
- Effective de-chlorination agent
- Easy to dissolve in water

Technical Specifications:

Molecular Formula	Na ₂ S ₂ O ₃
Purity	99% min
Appearance	Colorless Transparent Crystals
Solubility	Soluble in water

Availability:

IMPA	Product Description	Unit
-	Sodium Thiosulfate, 25kg	Bag

Safety Handling Consideration:

Store in a cool, dry environment Sodium Thiosulfate has very low toxicity but routine safety precautions should be practiced. Rubber gloves, safety goggles and protective clothing is recommended. Keep solutions away from heat and direct sunlight as the potential for release of sulphur dioxide fumes exists. Protect solutions from freezing.

See product **Material Safety Data Sheet** for complete information.
